Provided by designated supplier and arranged by parents.	The school orders healthy lunches and hosting 'Daily Fruit Day'. We participate in the EDB's '4Rs Mental Health Charter'. Events like Health Education Day, Outdoor Learning Day, camps, sports days, team training, and interest classes are included. A sports reward program features daily morning exercises and home activities. Students are encouraged to enjoy recreational activities during breaks.		In terms of mental health, the school offers integrated counseling supported by an effective network of social workers, psychologist and speech therapist. We organize adventure activities, and student birthday celebrations, GET SET GOAL award scheme, Helping the Poor Day. Students in P.2-P.6 join one of the six service teams, where they develop leadership skills and teamwork through participation in activities and services.		

Life-wide Learning

We provide ample opportunities for students to enrich their learning experience, and help them develop an enquiring mind and civic awareness by organizing such activities as STEM Education Day, Reading Day, Chinese Day, English Day, Maths Day, Art Exhibition, Cross-curricular Project Learning, Talent Show, Service-learning, etc. Our Service Teams: Flag raising team, Community Youth Club, Young Pioneers of Christ, Road Safety Association, Red Cross, Cub Scouts, Brownies.

School Mission

Our school is a catholic school run by the Minister in Hong Kong of the Order of Friars Minor. We aim to promote the teachings of the Franciscan Fathers which provides our pupils with quality education and develops them to become humble and wise persons in the future.

School Characteristics

School Management

School Management Organisation:

Our school has a highly effective management structure led by the Incorporated Management Committee. Under the leadership of the principle, teachers in executive committee cooperatively work on the development of the school.

Incorporated Management Committee / School Management Committee / Management Committee:

Our school has established the Incorporated Management Committee since 2013.

School Green Policy:

We implement a waste paper collection policy. We have waste separation bins. We cover the roof with Protuvalu roof coating and replace the air conditioners with highly efficient ones to save energy so as to improve students' environmental awareness. Our school has installed solar panels and connected them to the CLP power grid to support local renewable energy and practice sustainable development goals.

School's Major Concerns:

1. Enhance students' learning interest and sense of achievement.
2. Promote healthy lifestyle in school and promote physical, mental and spiritual development.

Learning and Teaching Plan

Learning & Teaching Strategies:

To enhance students' proficiency in English, our 2 NETs and our local English teachers use English as the medium of instruction in all English lessons. We also work closely on enriching both the English and the Putonghua language environment at school. In classrooms, teachers ask high-order thinking questions and use cooperative learning techniques to enhance students' learning efficacy. E-learning is also widely used to increase students' participation, to cater for learner diversity, and to make the learning process more engaging. Based on our school-based reading across the curriculum, students can acquire new skills and knowledge from extensive reading. Through different forms of assessment, students can reflect on their learning progress. We also promote life-wide learning by organizing study tours. Various activities are organised to promote physical fitness.

Development of Major Renewed Emphases of the Primary Education Curriculum:

Our school effectively utilizes learning hours to create space for diverse learning activities from Tuesday to Friday afternoons. These include emerging sports such as Strong Nation, rock climbing, Fitness Exercise, and fun martial arts. We also offer multiple intelligence classes, allowing students to systematically engage in experiential activities across subjects, encouraging participation and hands-on learning to develop their potential and challenge themselves. Additionally, we promote reading across curriculum, enabling students to learn and construct knowledge. This year, we focus on promoting national education to strengthen students' national identity and values. Our school emphasizes STEM education, incorporating coding courses for P1-6, and introducing new courses like RoboMaster programming, RiceRobot AI programming, AI Art Creation, Computational Thinking and Game Design for KS2 students.

Development of Generic Skills:

We places great emphasis on generic skills. Through diverse learning activities, we aim to enhance students' lifelong skills so that they can acquire, construct, and apply knowledge. The school places emphasis on scientific inquiry, aiming for students to discover knowledge through scientific exploration.

Cultivation of Proper Values, Attitudes and Behaviours:

Our school's goal is to cultivate a new generation of students who can face the challenges of the 21st century. Through learning activities both inside and outside of the classroom, we actively broaden students' horizons and nurture a deep understanding of Chinese culture and patriotism. We also place great emphasis on cultivating positive emotions, positive interpersonal relationships, healthy lifestyle, good character, and encouraging students to showcase their strengths. Our focus is on developing the whole person, with the goal of discovering, nurturing, and unleashing each individual's strengths and potential.

Student Support

Whole School Approach to Catering for Learner Diversity:

Set up both elite classes and remedial classes so that the ability of more capable students can be further stretched and less able students can be fully supported. Set up 'Talent Pool' and provide training programmes to high achievers. Provide assignment and assessment arrangements for SEN students. Provide various after-school remedial classes. Arrange teaching assistants to co-teach in classes. Design worksheets based on students' learning abilities.

Whole School Approach to Integrated Education:

Our school actively promotes an inclusive education model with whole school participation. The Student Support Team coordinates support measures to care for students with special educational needs. School-based educational psychologist provide professional consultations to parents and teachers; school-based speech therapist provides appropriate therapeutic services to students in need. We design individualized education plans for students, with support teachers collaborating to enhance learning outcomes. Teachers encourage students to participate in peer tutoring, fostering a supportive and inclusive campus atmosphere. We also arrange withdrawal counseling and after-school tutoring sessions, providing diverse training to help students improve hand-eye coordination, social skills, and concentration.

Education Support for Non-Chinese Speaking (NCS) Students:

Our school provides additional support for NCS students to facilitate their learning of Chinese: appointing additional teacher(s)/teaching assistant(s) to support NCS students' learning of Chinese; and organising activities to create an inclusive learning environment in the school. Our school provides NCS students with comprehensive learning support to facilitate their learning of Chinese and adaptation to school life. Our school provides after-school Chinese learning support and elementary Chinese language training. Through social inclusion groups and multicultural activities, students can apply their language skills in real-life situations, enhance their linguistic proficiency and social skills under the guidance of the supporting teacher. Besides, after-school homework tutorial classes help NCS students understand and complete their assignments.

Curriculum Tailoring and Adaptation:

Our school has adopted diversified teaching strategies, effective assessment methods and curriculum adaptations to meet students' diverse learning needs. Bridging courses are provided to support the transition from Kindergarten to P.1 and from P.6 to S.1.

Home-School Co-operation and School Ethos

Home-School Co-operation:

We maintain close communication with parents through electronic notices and latest news on Eclass platform. We organize parent evenings, parent days, and sunshine calls to strengthen communication. The PTA has formed a large team of parent volunteers who actively participate in school activities and support the development of the school.

School Ethos:

Our school's guiding principle is student-centered education and guidance, integrating the five core values of Catholic education, and committed to developing whole-person education and creating a culture of care and inclusion. Through organizing themed counseling activities and service teams, we aim to cultivate a positive outlook on life among students, and to teach them to care about society, respect life, be humble and wise, and become good citizens who uphold the rule of law. We are devoted to promoting a healthy lifestyle and have won the AIA Healthiest Schools Challenge 2022/23, and will compete against other champion schools from Australia, Vietnam, and Thailand for the overall championship in the primary school category. We have won the Care for Campus award for several consecutive years.

Future Development

School Development Plan:

1. Enhancing students' learning interest and sense of achievement.
 - A. Enhance students' learning interest.
 - B. Enhance students' self-confidence and boost their sense of achievement.
 - C. Make good use of artificial intelligence to improve teaching and learning effectiveness.
2. Creating a healthy campus to promote physical, psychological & spiritual development.
 - A. Establish a healthy lifestyle.
 - B. Promote students' mental health.

Teacher Professional Training & Development:

Organize various types of teacher training activities, and through collaborative lesson preparation and peer observations, enhance teachers' awareness of national security and teaching effectiveness. We also promote exchanges and learning opportunities between teachers and schools abroad to improve teaching skills.

Others

Our school frequently wins awards in various inter-school competitions. This year, we received the Excellent Award in the Senior Division of the Inter-School Dance Festival; the Outstanding Boys' Softball Championship in the North Kowloon competition, and the Second and First Place in the Boys' and Girls' Special Shot Put Championships; the Bronze Award in the Inter-School Choir Competition; the Bronze Award in the Mathematical Olympiad Competition; the Third Place in the Inter-School Essay Competition; the Gold Award in the "World Children's Art Competition" in Korea; the First and Third Place in the "STEM Award Scheme Sony Ecological Photography Competition"; the Regional Championship of the Cub Scout Chairman's Shield; the Gold Award in the CYC Charity Flower Sale Fundraising; and the Outstanding Young Member Award from the Hong Kong Red Cross. The school organizes exchange activities annually, having previously visited Australia, Canada, the United Kingdom, and Mainland.
