**School Mission**

We believe "Every student is able to learn, progress and excel". It is our mission to provide students with a holistic education emphasizing their academic, moral, physical, social and aesthetic development. Our students are inspired to become respectful, conscientious and driven young people. We strive to develop confidence in our students and gear them up for serving the community, cultivating an affection for their country and pursuing a global perspective.

**School Information**

Supervisor / Chairman of School Management Committee	Mr. Leung Siu On, Clifford, MH		
Principal (with Qualifications / Experiences)	Ms. Lok Wing Yi Cassandra (MEd, BA, PGCE)		
School Type	Aided	Student Gender	Co-ed
School Motto	AMOR BENIGNITAS DILIGENTIA FIDES		
Name of Sponsoring Body	The Lok Sin Tong Benevolent Society, Kowloon		
Area Occupied by the School	About 5000 Sq. M	Religion	Not Applicable
Parent-Teacher Association	Yes	Past Students' Association / School Alumni Association	Yes
Incorporated Management Committee	Established	Percentage of School Supervisor and Managers / Chairperson and Members of School Management Committee (SMC) of Government Schools Fulfilling the Training Targets	
4Rs Mental Health Charter	Yes	Whole School Health Programme	Pledged School

**Teaching Staff Information (Including School Head) in the 2025/2026 School Year**

Number of Teaching Posts in the Approved Establishment	59
Total Number of Teachers in the School	62
Qualifications and Professional Training (% of Teaching Staff)	
Had Received Teacher Training	84%
Bachelor Degree	100%
Master / Doctorate Degree or above	52%
Special Education Training	57%
Years of Experience (% of Teaching Staff)	
0 - 4 Years	18%
5 - 9 Years	8%
>= 10 Years	74%

**Subjects Offered in the 2025/2026 School Year**

S.1 - S.3	Chinese as the Medium of Instruction	Chinese Language, Mathematics*, Citizenship, Economics and Society*, Science* (S.1-S.2), Physics* (S.3), Biology* (S.3), Chemistry* (S.3), STEAM (S.3), Chinese History, Geography, History, Computer Literacy, Music, Physical Education, Technology and Living (S.1-S.2), Design and Technology, Putonghua, Visual Arts, Library Lessons (S.1), Reading Lessons, Activity Lessons, Liberal Arts Education Lessons
	English as the Medium of Instruction	English Language
	Adopt a Different Medium of Instruction by Class or by Group / School-based Curriculum	-
S.4 - S.6	Chinese as the Medium of Instruction	Chinese Language, Citizenship and Social Development, Geography, Chinese History, History, Information & Communication Technology, Economics, Biology, Chemistry, Visual Arts, Physical Education, DSE Physical Education, Music, Reading Lessons, Liberal Arts Education Lessons, Applied Learning
	English as the Medium of Instruction	English Language, Physics, Mathematics (Extended Part)
	Adopt a Different Medium of Instruction by Class or by Group / School-based Curriculum	Mathematics (Compulsory Part)

\* Subjects with extended learning activities (ELA) in English

## Subjects to be Offered in the 2026/2027 School Year

S.1 - S.3	Chinese as the Medium of Instruction	Chinese Language, Mathematics* (S.2-S.3), Citizenship, Economics and Society* , Science* (S.1-S.2), Physics* (S.3), Biology* (S.3), Chemistry* (S.3), STEAM (S.3), Chinese History, Geography, History, Computer Literacy, Music, Physical Education, Technology and Living (S.1-S.2), Design and Technology, Putonghua, Visual Arts, Library Lessons (S.1), Reading Lessons, Activity Lessons, Liberal Arts Education Lessons
	English as the Medium of Instruction	English Language, Mathematics (S.1)
	Adopt a Different Medium of Instruction by Class or by Group / School-based Curriculum	-
S.4 - S.6	Chinese as the Medium of Instruction	Chinese Language, Citizenship and Social Development, Geography, Chinese History, History, Information & Communication Technology, Economics, Biology, Chemistry (S.5-S.6), Visual Arts, Physical Education, DSE Physical Education, Music, Reading Lessons, Liberal Arts Education Lessons, Applied Learning
	English as the Medium of Instruction	English Language, Physics, Chemistry (S.4), Mathematics (Extended Part), DSE Music
	Adopt a Different Medium of Instruction by Class or by Group / School-based Curriculum	Mathematics (Compulsory Part)

\* Subjects with extended learning activities (ELA) in English

## Class Structure & Chargeable Fees (2025/2026)

No. of Classes	4	4	4	4	4	4
School Fee	-	-	-	-	-	-
Tong Fai	-	-	-	\$340	\$340	\$340
Parent-Teacher Association Fee	\$80					
Student Union / Association Fee	\$30					
Approved Charges for Non-standard Items	-					
Other Charges / Fees	-					

## Remarks

From the academic year 2026/2027 onward, English will be the medium of instruction in S.1 Mathematics and S.4 Chemistry. Extended Learning Activities (ELA) delivered in English are conducted for Mathematics (S.2 & S.3), Citizenship, Economics and Society, Science, Physics (S.3), Biology (S.3) and Chemistry (S.3) at the Junior Secondary Phase.

## S.1 Admission, Orientation Activities & Healthy School Life

<p><b>Secondary One Admission</b></p> <p>Our school will accept discretionary places. Our school will participate in the Secondary School Places Allocation System through central allocation stage (Applicable for admission to S.1 in September 2026). Academic Results and Conduct: 30%; EDB Rank Order: 25%; Interview Performance: 25%; Extra-Curricular Activities: 20%.</p>
<p><b>Orientation Activities and Healthy Life</b></p> <p>Events such as the S.1 Orientation Day for students and their parents, summer bridging courses, parents' night, open classes, learning showcase day, as well as a week-long of counselling activities are organized to prepare the new students to adapt to the new learning environment. To bring out the best in our students, we have launched the "LSTLCW Leadership Training Programme" for S.1 and S.2 students. School-based projects are implemented in collaboration with community partners to inculcate proper values in students and boost their skills in managing adversity. Students are encouraged to volunteer to care for the community and learn to cherish what they have so as to develop themselves holistically. We treasure mental health.</p>

<b>School Characteristics</b>
<b>School Management</b>
<p><b>School's Major Concerns:</b> Our students:</p> <ol style="list-style-type: none"> <li>1. Learn with Motivation, Strategies, Joy and Competence;</li> <li>2. Live a Healthy, Caring and Meaningful Life;</li> <li>3. Grow to be leaders with Insight and Empathy.</li> </ol>
<p><b>School Management Organisation:</b> With the use of a sound researched based self-evaluation approach, all subject panels regularly engage in the "Planning-Implementing-Evaluating-Planning" (P-I-E-P) cycle which aims to refine their curriculum and current practices. All of which are done with a view to promoting effective and qualitative learning and teaching, through appropriate structures for communication and quality assurance.</p>
<p><b>Incorporated Management Committee / School Management Committee / Management Committee:</b> The IMC was established in 2006 to enhance transparency and accountability in formulating school policies. Getting members of the school sponsoring body, parents, alumni and teachers involved in the work of the IMC enables them to participate in and support school policies. This partnership boosts mutual trust, communication, understanding and collaboration.</p>
<p><b>School Green Policy:</b> We promote a green campus. Students are involved in recycling campaigns such as collecting waste paper, glass bottles and using waste separate bins. Through participating in the "Glass Bottle Recycling Project" initiated by the Correctional Services Department, the Lok Sin Tong Benevolent Society, Kowloon, and the Action Green Committee Limited, our students have developed environmental awareness, creativity and a sense of empathy.</p>
<b>Learning and Teaching Plan</b>
<p><b>Whole-school Language Policy:</b> Chinese is used as a primary medium of instruction in junior forms. From the academic year 2026/2027 onward, English is adopted as the medium of instruction in S.1 Mathematics and S.4 Chemistry. English is also used as the medium of instruction when conducting Extended Learning Activities (ELA) in Mathematics, Citizenship, Economics and Society, Science, Physics (S.3), Biology (S.3) and Chemistry (S.3). In Senior Forms, we adopt English as the medium of instruction in Physics, Chemistry, Mathematics (Extended Part), some selected Mathematics classes and DSE Music. (Please refer to Subjects Offered in the 2025/26 s.y. and 2026/27 s.y. for details.). Providing an enriched English learning environment for students always takes priority at our school. To keep S.1 students abreast of local and international topical news, we have our "School-based English Editorial Reading Aloud Programme". The "Language Across the Curriculum Programme" is carried out to pave the way for students to self-study other subjects in English. Online reading helps students develop their skills in self-learning. Our school-based English ambassadorial training programme aims to support students to introduce our school and curriculum with competent English. The English ambassadors serve as coaches in a creative poetry writing programme initiated by our school. They guide the primary students who join the programme to become creative poets. Around 200 students actively participate in the Hong Kong Schools English and Chinese Speech Festival every year. We have won multiple awards over the years. Our students won in the United Nations Conference and went on the trip to the University of Cambridge to exchange with the elite students from all over the world. Our English ambassadors were invited to be involved in the RTHK "Dream Chasers" programme to exchange ideas with the young IT entrepreneurs. The "Worldwide Classroom Leadership Training Programme" strives to broaden our students' horizons. We have organized tours to China, England, France, Australia, Denmark, Greece, Italy, Croatia, Brunei, Singapore, Malaysia and Japan.</p>
<p><b>Learning and Teaching Strategies:</b> To nurture students to be well-rounded, we strive to develop our "Student Talent Pool". We offer "Activity Lessons" and "Liberal Arts Education Lessons" to foster whole person development. Various course options in our New Senior Secondary curriculum provide students with plenty of opportunities to develop their diverse abilities and interests optimally. Our school strives to implement progressive, avant-garde and learner-centered teaching strategies to cultivate students' generic and specific skills for their holistic development. We also value the 7 Learning Goals and the 12 key values education. STEAM education is one of the major focuses of our school. Our students are cultivated to be both inquisitive and creative in exploring the scientific world. In celebration of our school's 40th anniversary, we have established two extra STEAM Labs (Innotopia &amp; Synergy Hub). We promote e-learning in the hope of facilitating STEAM Education. We organize STEAM classes and STEAM Days to encourage students to participate in a variety of STEAM competitions. We have launched an Aerospace Leadership Training Programme. We have been working collaboratively with universities and community partners to develop aerospace training programmes for teachers and students. Our school has also been invited by regional primary schools to conduct STEAM lessons with their students. Our STEAM ambassadors were invited to share in the Hong Kong Learning and Teaching Expo and the Bett UK over the past four years.</p>
<p><b>School-based Curriculum:</b> 1. Electives: 2X and 3X. Senior form students can opt for two or three electives. For details, please refer to our school website. 2. Curriculum highlights: A comprehensive curriculum is advocated to offer students with diversified learning experiences. With the aim to refining our junior curriculum, we have collaborated with the Quality School Improvement Project organised by the Chinese University of Hong Kong and the EDB over the past few years. The efforts made by the Departments of English, Mathematics, Chinese, Citizenship and Social Development, Science and STEAM related subjects have had a positive impact on students' learning.</p>
<p><b>Major Renewed Emphases in the School Curriculum:</b> Please refer to "Others" field.</p>
<p><b>Life Planning Education:</b> The Life Planning Education Team has developed a comprehensive school-based curriculum in career and life planning, with a view to helping students develop a better understanding of themselves, focusing on academic and career advancement as well as formulating a blueprint for their own lives. To keep students informed of updated information on further studies and the job market, the Life Planning Education Team arranges visits, seminars, mentorship programmes, a career week as well as actively participating in the Sister School Scheme. Through a series of workshops, students learn how to develop positive attitudes and acquire essential skills in setting life goals for self-improvement. We are committed to nurturing our students to become responsible local and global citizens. We have actively participated in the Business-School Partnership Programme, the "InnoMind" Programme organized by the Young Entrepreneurs Development Council and the "Youth Impact Award", all of which led to Championships. Our students got into the final round of the JUMPSTARTER Hong Kong Student Startup Competition 2021 organized by Alibaba Entrepreneurs Fund. Our students have also been selected to join the Project Morals &amp; Money (Project M<sup>2</sup>) Summer Programme organized by the Solomon Learning Group over the past few years. Our junior form student won the special "Link 20th Anniversary Outstanding Student Scholarship".</p>
<b>Student Support</b>
<p><b>Whole School Approach to Catering for Learner Diversity:</b> Please refer to "Others" field.</p>
<p><b>Whole School Approach to Integrated Education:</b> Our school strives to offer support and guidance to the students who have special learning needs. We cultivate mental health literacy, promote social integration on campus by organizing a range of activities. We also value home-school cooperation by hosting meetings and workshops for parents to learn to support children with diverse needs. We organize various activities to promote mental health. We organize the Mental Health Day, the Healthy Living Week to promote students' well-being.</p>
<p><b>Measures to Provide Adaptation for Learning and Assessment:</b> Two examinations and two uniform tests are held annually. Emphasis is placed on conducting tests continuous assessment via students' regular assignments and projects. Students are spurred on to acquire productive learning habits. Eligibility tests in Chinese, English and Mathematics for Junior Forms are run annually to determine students' learning diversity as well as to provide a point of reference for adjusting learning and teaching strategies. Pre-examination revision classes are conducted for the students who need further help with their study skills.</p>

## Home-School Co-operation and School Ethos

### Home-School Co-operation:

Our school enhances relations and forges strong ties between our parents and the school. Seminars for parents often take place for enhancing communication between parents and the school, as well as to deliberate on the approaches to educating children. Sessions for parents are conducted in collaboration with the Parent-Teacher Association to boost parenting skills. Besides sitting in IMC meetings, parent volunteers are also engaged in different kinds of activities conducive to the personal growth of our students.

### School Ethos:

The school-based curriculum is designed to foster students' personal growth and instill in them core values and life skills. Our school organizes various training programmes in collaboration with various organizations, such as the City University of Hong Kong, the Department of Health, the Leisure and Cultural Services Department, the Hong Kong Young Women's Christian Association (YWCA), the Boys' and Girls' Clubs Association of Hong Kong and so on. Class-based and learner-centred activities are held for students to internalize appropriate habits and attitudes. The system of having two class teachers per class is also arranged to cater students with more personal support.

### Future Development

#### School Development Plan:

We truly believe that "Every student is able to learn progress and excel". Hence, we value the importance of laying a strong foundation for learning through the fundamental steps of: Preparation- Participation- and Reflection. All of which helps to serve the essence of a 'good lesson', be it through blended learning, e-learning, an on-going process for refined preparation, or an assessment for learning. All these learning skills are conducive to student success in the classroom.

We value STEAM education. We incorporate concepts of environmental protection into STEAM learning. We also organize artificial intelligence, virtual reality, robotics, coding and aerospace programmes and activities to make STEAM learning fun and meaningful. We offer scholarships for STEAM learning in order to give students the incentive to aim high.

We value multiple intelligences. Through life and careers education, our students are brought up lovingly with integrity, discipline and guidance. An extensive range of innovative school activities are organized to help students develop the qualities of empathy and care for others. Simultaneously, students are also motivated to learn positive thinking and essential values to face up to adversity. The leadership training programmes further develop confidence in our students.

#### Teacher Professional Training and Development:

Apart from engaging teachers in the regular meetings for common lesson preparation, educational visits in and out of Hong Kong are also organized. Whereby, teachers are encouraged to develop themselves professionally by formulating and implementing innovative subject-based development plans. Thematic talks, classes for the purpose of peer observation and the sharing of exemplary teaching materials are a normal practice for our school. Such activities are instrumental in fostering the professional growth and development of our teachers.

To further enhance our effectiveness in teaching and learning, the Departments of Chinese Language, English Language and Mathematics have participated in the EDB Support Service Programme and the Quality School Improvement Project (CUHK) to enhance teaching and learning.

#### Life-wide Learning (Including Five Essential Learning Experiences to be Provided through Key Learning Areas, Extra-curricular Activities, Co-curricular Activities, etc.)

Aiming to promote whole person growth and develop academic capabilities, numerous programmes such as performing arts, recreational activities, skill-based and community service activities are offered. More than 20 societies and interest groups are made available for students to develop their potential to the maximum. To broaden students' horizons, learning trips to Singapore, Brunei, Seoul, Okinawa, the Republic of Kazakhstan and the mainland have been organized. Our students actively participate in the Business-School Partnership Programme and the multi-intelligence programmes. We value moral and civic education. We hope to nurture our students to be responsible citizens. The Senior Form Curriculum for the "Other Learning Experiences" is developed as an extension to the activity lessons to junior forms. Teachers guide students to complete a Student Learning Portfolio to record their learning experiences.

### School Facilities

#### Number of Classroom(s): 28

#### School Facilities:

English Room, Auditorium, Multi-Media Learning Centre, STEAM Labs (Innotopia & Synergy Hub), Computer Assisted Learning Room, Student Activity Centre, Organic Garden, Gymnasium, Dance Room, Air-conditioned classrooms, Lifts, School Archive Room, Parent Activity Centre and School Hall

#### Facility(ies) for Supporting Students with Special Educational Needs:

Accessible lift and Accessible toilet.

### Others

#### Major Renewed Emphases in the School Curriculum:

##### Key Updates to the School Curriculum (2025)

Our vision is to make the school the first chapter in students' lives. We have established a "Life Campus" to nurture our students into self-directed learners who are "eager, capable, joyful and proficient in learning". They will lead healthy, compassionate and fulfilling lives, growing into visionary, resilient and socially committed leaders.

We are advancing our school-based self-directed learning model, PPR 2.0 (Preparation-Participation-Reflection). Students collaborate with teachers to set learning goals, engage actively in lessons and make learning "visible and audible". They develop reflective habits and explore learning strategies and goals tailored to their needs. Daily "Morning Reading Delight" sessions in Chinese and English promote online reading, while all subjects integrate reading into learning activities. Subjects such as Citizenship, Economics and Society, Life and Society and Science further adopt "issue-based inquiry" and project-based learning.

An annual moral education theme guides the development of our school-based curriculum. Through initiatives like "Integrated Arts Lessons", "Class Teacher Lessons", "Activity Lessons", the "World Classroom Leadership Training Programme" and the "LSTLCW Leadership Training Platform", we promote life education, healthy living, media and information literacy, education for sustainable development, enhanced learning of Chinese history and culture, STEAM education and career and life planning. These efforts aim to foster positive values and cultivate responsible citizenship.

We are building a caring and inclusive school culture and a healthy campus. Activities such as "Healthy Living Week", "Inclusion and Care Week", orientation programmes for Secondary 1 students, birthday celebrations and tea gatherings between the principal and class representatives strengthen students' sense of belonging and connection to the school.

Our school has joined the Education Bureau's "4Rs Mental Health Charter" and the "School-based Whole Campus Health Plan" to help students build positive relationships, enhance well-being and resilience and promote a healthy school culture. Students also engage in voluntary services, such as the school-based "Little Sprouts Mentorship Scheme", through which they teach English in local primary schools to broaden their learning experiences.

#### Whole School Approach to Catering for Learner Diversity:

Our school identifies students with different learning styles prior to their entry. Enhancement and remedial courses in Chinese, English and Mathematics are available for all levels together with support schemes for students with diverse learning needs. Teachers' meetings are held regularly to familiarise teachers with appropriate teaching pedagogies to cater for learners' wide diversity. Teacher-training is conducted to sharpen our teachers' understanding of inclusive education. We endeavour to develop an inclusive school culture to assist our students from the Mainland.

#### Direct Public Transportation to School

Bus: 41, 42A, 42C, 43, 43A, 43B, 43C, 43M, 243M, 249M, 249X, 264M, 279X, A31, E21, N21, N21A, E31, N31, E32, E42;  
Green Minibus: 88A, 88D, 88F, 140, 308M.
