School Mission

S.K.H. St. Simon's Lui Ming Choi Secondary School upholds the values of Christian holistic education and the Hong Kong Sheng Kung Hui tradition, nurturing the balanced development of youth in moral, intellectual, physical, social, aesthetic and spiritual domains. We also cultivate their 21st Century Capabilities to help realize their individual potential and become servant leaders of excellent character.

S.1 Admission, Orientation Activities & Healthy School Life

Secondary One Admission

Our school will accept discretionary places. Our school will participate in the Secondary School Places Allocation System through central allocation stage (Applicable for admission to S.1 in September 2026).

Academic performance 40%;

Interview performance 30%;

Conduct 20%;

Extra-curricular activities and services 10%

Orientation Activities and Healthy Life

To establish a close relationship between the parents and the school, help new students understand the school and reinforce students' sense of belonging to the school whilst developing good relationships among students, our school annually holds a pre-term orientation day for both the new students and their parents, as well as carrying out Bridging Courses for the new students to get to know the school better. The school places emphasis on the all-round educational development of its students, from their intellectual, physical and social to their spiritual, moral and aesthetic development. Student applicants are required to submit official documents such as report cards and certificates of awards for perusal by the school.

To improve students' health, the school arranges four periods of Physical Education per cycle. The school also provides school sport teams for students to join. To help students develop balanced dietary habits, S.1 students must join the Lunch at School Scheme and have lunch at school.

School Characteristics
School Management
School's Major Concerns: 1. Establish a professional community and enhance student's learning effectiveness. 2. Cultivate a positive growth mindset and positive values and attitudes in students.
School Management Organisation: There are over 20 committees and teams to coordinate various matters in the running of the School. These committees monitor the curriculum, teaching and learning affairs, use of information technology, students' discipline, provision of guidance and counselling, career and life planning, student awards, extra-curricular activities, students' spiritual growth, collaboration with parents, values education and national security education.
Incorporated Management Committee / School Management Committee / Management Committee: Incorporated Management Committee
School Green Policy: The School has set up the Environmental Protection Club and School Greening Team and has actively been promoting energy saving and greening. Besides, students' values of caring for the environment is cultivated.
Learning and Teaching Plan
Whole-school Language Policy: Chinese is the medium of instruction for S.1 to S.6. To improve the students' proficiency in English, while upholding mother-tongue teaching and enhancing proficiency in Chinese and English, our plan is to increase the total lesson time for conducting extended learning activities in English in S.1 to S.3. The non-language subjects such as Mathematics, Integrated Science, Life & Society, Citizenship, Economics and Society, Geography, History, Christianity Education, Technology & Living, Business Fundamentals, Visual Arts, Computer Education and Music are taught mainly in the medium of Chinese, while selected topics and concept words are taught in English. Also, English teaching elements are strengthened in the Mathematics curriculum in the elite classes in S.1 to S.3. For the extended learning activities in junior forms, exam and test papers will partly be set in English for assessments so as to ensure students' learning efficacy.
Learning and Teaching Strategies: Students are trained to enhance their analytical thinking, self-learning abilities and generic skills. To keep track of the development of e-learning and self-regulated learning, the "Bring-Your-Own-Device"(BYOD) scheme is implemented in all forms. All classrooms are equipped with a computer, an interactive whiteboard and a visualizer. The school has a modern, well-equipped STEAM Lab, a Chinese Culture Centre, and a Wellness Hub, with an expanded English Café and library also on the way. Moreover, our school has set up an "Outdoor Learning Centre" in Ha Pak Nai in order to promote school-based experiential learning and service learning programs. Our curriculum structure keeps pace with the students' abilities and the needs in society. A talent enhancement programme is set up in senior forms. It aims to boost students' performance by providing them learning strategies, advice on their studies, English enhancement courses, life-planning guidance and psychological quality counseling.
School-based Curriculum: 1. Electives: 2X and 3X. Biology, Physics, Chemistry, Economics, Business, Accounting and Financial Studies, Tourism and Hospitality Studies, Chinese History, History, Geography, Visual Arts, Technology & Living, Information and Communication Technology, and Health Management and Social Care, Applied Learning course, Diploma of Vocational Education (DVE) 2. Curriculum highlights: a) To cater for the learner diversity, the school provides differentiated teaching arrangements for Chinese, English, and Mathematics subjects for S.1 and S.3 students. English Language Arts elements are introduced into the S.1 English curriculum to enhance students' motivation for learning English. Additionally, the Diversity Learning Grant, provided by EDB, has been used to run Enhancement Programmes for elite students in senior forms outside school hours. Intensive Remedial Programmes are implemented for junior form students to cater learner diversity. b) Our curriculum structure emphasizes the holistic development of students, to be constantly optimized, and continually introducing new subjects in response to students' abilities and societal developments. It provides a diverse range of subjects for junior secondary students, such as Design and Technology, Computer Education, Business Fundamentals, Technology & Living and so on. c) S.1 and S.4 Service Learning Programmes serve to develop students' sense of empathy and commitment to continually grow as a servant leader.
Major Renewed Emphases in the School Curriculum: Reading across the curriculum: Implementation of Chinese and English Morning Reading Program, extensive reading scheme organized by various subjects, reading passports, student ambassadors to promote reading and talks by writers. Information technology for interactive learning and self-directed learning: Installation of computers, projectors, interactive whiteboards, visualizers and Wi-Fi in all classrooms, broadband and WiFi access to the Internet. Tablets for learning are available when needed. The Computer Room is open to students after school. The BYOD Policy is implemented in all Form Levels. Project learning: Project learning activities are to be conducted in all Key Learning Areas. Moral and Civic Education: school-based moral education lessons, form time, guidance week, gospel week and student civic ambassador program.
Life Planning Education: To assist students in self-understanding, setting study goals and career aspirations, our school has implemented school-based career planning education in all forms to cater for the developmental needs of students at different stages of growth. For example, the S.4 and S.5 career planning lessons enable students to understand themselves more and help them formulate life and career goals. Our school has joined the 'CLAP for Youth @JC'. Through the Hong Kong Benchmarks for Career and Life Development (HKMB), we have established a systematic self-improvement framework and a strategic vision to build quality career development and enhance the career development outcomes of the school. This year, our school continues to collaborate with external organizations to organize various school-based career planning activities, such as Socio-game, workplace visits and the "Mentorship Program" to provide students with learning experiences beyond the classroom and broaden their horizons. We also encourage students to set long-term study or career goals based on their interests, abilities, and aspirations. The career planning team teachers and class teachers provide individual or group counseling to students. For example, in S.3, "Subject Selection and Study Path Guidance" meetings are arranged in group sessions to help students understand their subject selection orientation, considerations, and other study pathways, enabling them to fully grasp study information and plan their personal career development path comprehensively. Furthermore, we conduct "Career Interest Assessment" to understand the career interests of all students. Individual meetings with career planning team teachers will be arranged for senior form students to help them understand themselves so that they can make suitable choices regarding their learning, life and career goals.
Student Support
Whole School Approach to Catering for Learner Diversity: Assignments and assessments are of different levels of difficulty, with review of student's academic results and learning attitudes. Regular meetings are arranged for Class Management and Student Development purposes. Whenever necessary, collaborative follow-up actions would be taken. Educational Psychologist, School Social Worker, Speech Therapist and Clinical Psychologist would help students with special needs. Teachers received training continuously to help SEN students. This academic year, through our collaboration with Teach Unlimited Foundation, the school successfully secured two full-time mentors to provide on-site support. Their primary role is to promote students' motivation and confidence in learning English. The addition of these mentors has not only effectively optimized the English learning atmosphere on campus but has also strategically expanded opportunities for students to use English in diverse settings. In addition, the two mentors actively participate in and help plan various career planning activities, guiding students to explore their future paths and equipping them to face challenges in different stages of life.
Whole School Approach to Integrated Education: To cater for students' special learning needs, we have the Learning Support Grant from the Education Bureau to carry out the following projects: 1. Apart from the school-based Speech Therapist and Educational Psychologist, we set up Student Support Team, which is led by Special Educational Needs Coordinator (SENCO), Special Educational Needs Support Teachers (SENST), counsellors and part-time tutors for organizing Individual Education Plan (IEP) and exam adaptation. Assessment and regular training will be provided for students with special needs. 2. We are cooperating with different organizations to carry out work groups. This will let students understand their own characters, realize and comprehend different ways of career planning and build up a preliminary idea for their future. 3. A school-based learning group called "Language World" will be set up for S.1 and S.2 students. This will support students' learning needs.
Education Support for Non-Chinese Speaking (NCS) Students: Our school provides additional support for NCS students to facilitate their learning of Chinese: providing after-school support programmes in learning Chinese; appointing additional teacher(s)/teaching assistant(s) to support NCS students' learning of Chinese; arranging intensive Chinese learning and teaching mode(s), e.g. pull-out learning if necessary, split-class/group learning, etc.; and organising activities to create an inclusive learning environment in the school.
Measures to Provide Adaptation for Learning and Assessment: Assessment is based on tests, examinations and daily work throughout the academic years. Some subjects include projects as continuous assessments.

Home-School Co-operation and School Ethos
<p>Home-School Co-operation: The school places great emphasis on collaboration between the school and parents. We regularly hold parent-teacher conferences and "Tea Time with Principal" events, and we use various media to share school information, all with the goal of strengthening communication between the school and parents. Our school also has a Parent-Teacher Association (PTA) that organizes a variety of activities to enhance home-school connections and promote parent education. These activities include parent-child fun days, parent interest classes, enrichment courses for parents, parent support groups, and parent education talks. Additionally, our parent volunteers are enthusiastic about serving the school, helping to organize various events such as used book sales, the used school uniform donation program, the school sports day, and school information days. Parents and the school work together to realize the vision of home-school collaboration, helping students grow and promoting the development of the school.</p>
<p>School Ethos: The discipline and guidance teams work together to foster caring and good school ethos. School social workers, Education Psychologist, Clinical Psychologist and Speech Therapist would provide guidance. Various awards are provided to commend outstanding performances. To provide better care for every student, three form teachers are allocated to each S.1 & S.2 class, while S.3 to S.6 classes are taken care of by two form teachers. Lunch-at-school arrangement and after-school "Life Growth" courses are provided for S.1 students to enhance care.</p>
Future Development
<p>School Development Plan: Deepening Self-regulated Learning to empower students to become masters of their own learning processes: The school places a strong emphasis on the personalized development of students. Through systematic planning of the "Mingchoians' Learning Blueprint", we continuously advocate for the ultimate goal of realizing students' potential through diverse learning experiences and equip them to face the challenges of the 21st century. Strengthening positive education to cultivate positive values in students: Our school is committed to creating a positive and joyful campus atmosphere. Through systematic planning of the "Mingchoians' Growth Ladder", we cultivate students a sense of belonging to their school, embodying resilience and a sense of responsibility, and grooming them to become future leaders. In accordance with the educational trends of the 21st century, our school will establish facilities such as the "Artisan Dream Workshop", "AI Innovation Hub" and Physical Fitness Centre in the future, enhancing students' scientific and creative abilities and advocating for a healthy lifestyle.</p>
<p>Teacher Professional Training and Development: School Professional Development Days, which cover areas such as spiritual nurturing, teaching and learning and student support and growth, are held every year. Teachers fulfill a designated number of training hours each year. Teachers of different disciplines regularly co-plan their lessons and share experiences. All these facilitate professional exchanges through peer observation and lesson evaluation to observe classroom teaching for professional development. Additionally, our Chinese, English, and Mathematics Departments, as well as the Personal, Social and Humanities Education Key Learning Area, the STEAM Team, and middle managers/curriculum leaders, regularly participate in the School-Based Support Services and the Gifted Education Teacher Network Program offered by the Education Bureau.</p>
<p>Life-wide Learning (Including Five Essential Learning Experiences to be Provided through Key Learning Areas, Extra-curricular Activities, Co-curricular Activities, etc.)</p>
<p>Student Union, 4 Houses, Class Association, School Teams, Christian Fellowship, 12 Clubs including those related to academic subjects, Sports, Art, Interests, and Service Groups; 18 training courses on artistic skills and sports teams; leadership training courses and programs jointly organized by professional organizations.</p>
School Facilities
Number of Classroom(s): 26
<p>School Facilities: Wellness Hub, Chinese Culture Centre, Chapel, Assembly Hall, Computer Room, Information Technology Learning Centre, Library, School Archive Room, Music Room, Student Activity Centre, Resource Centre for Parents, Guidance Room, STEAM Lab, Self-Study Centre, covered playground and basketball courts. As e-Learning becomes increasingly important, all classrooms and most of the special rooms in our school are equipped with interactive whiteboards to keep up with the new teaching trends. In addition, our school has established a STEAM Lab, which allows students to demonstrate their creativity and develop their problem-solving abilities through hands-on experiments and project studies. Our school has renovated the school hall recently to provide a more comfortable environment for school assemblies; at the same time, we have installed LED wall in the auditorium to better display various school activities, such as English musicals. Our school continues to optimize the campus. The covered playground has been equipped with LED wall and air-conditioning equipment to provide teachers and students with a better learning environment.</p>
<p>Facility(ies) for Supporting Students with Special Educational Needs: Screen Reader, Amplifier and Speech to text software.</p>
Others
<p>The School promotes positive values as well as Christian values. We promote the spirit of "To Serve, Not To Be Served" among students. We also build up an intimate relationship with HKSJKH St. Peter's Church, Castle Peak and St. James' Settlement to promote Life Education activities. Moreover, we co-operate with HKSJKH Welfare Council Limited to organize Learning Support Programs. This year, our school participates in the International Alliance for Invitational Education (Hong Kong) to further strengthen a caring campus culture, allowing the potential of students with diverse abilities and needs to be inspired. In addition, our school has participated in The Hong Kong Jockey Club "CLAP@JC" Scheme as a network school. We will engage in regular exchange with other schools regarding promoting career and life development. Enhancing reading atmosphere is one of our key concerns, related activities include Chinese and English Morning Reading Sessions, promoting reading by Student Ambassadors, providing Chinese and English Reading Awards to recognize outstanding readers, arranging talks by writers, book exhibitions and Book Borrowing Competition, and encouraging students' participation in reading competitions organized by outside organizations.</p>
Direct Public Transportation to School
<p>Tuen Ma Line - Tuen Mun Station (Exit F2); Light Rail (Routes 507, 751) - Ho Tin Station; Buses: 60M, 263, 263A, 263C, 506, 961, K51, K52, K53, K58, A33P, A33X, B3M; Mini-buses: 40, 42, 43, 43A, 43B, 43C, 43S, 44A, 44B, 45, 46, 46A.</p>
