S.1 Admission, Orientation Activities & Healthy School Life

Secondary One Admission
Our school will accept discretionary places. Our school will participate in the Secondary School Places Allocation System through central allocation stage (Applicable for admission to S.1 in September 2025). The admission criteria and weightings have yet to be finalised. Please refer to the announcement of the school on the school webpage in December 2024.
Orientation Activities and Healthy Life
Our school arranges a summer bridging program and orientation activities for incoming Secondary 1 students. We aim to provide students with an initial understanding of our school and curriculum. Healthy School Programme is arranged for students to nurture healthy lifestyle and cultivate positive values and attitudes.

School Characteristics
School Management
School's Major Concerns: To empower students to become proactive learners, to cultivate lifelong learning mindsets and habits for enhancing capacities to strive for excellence in life.
School Management Organisation: The school-based management mode is adopted. The Incorporated Management Committee consists of parents, alumni, teachers, Principal and members of the public recommended by Sik Sik Yuen to monitor the school's administration and operation. All teachers attend regular meetings to set school plans, policy and major concerns. Staff review and evaluate implementation to make continuous improvement through professional dialogues and exchanges.
Incorporated Management Committee / School Management Committee / Management Committee: Formed in 2005, the Incorporated Management Committee consists of parents, alumni, teachers, the Principal, individuals and representatives from the school sponsoring body.
School Green Policy: In order to encourage students to practice Low Carbon Living, our school Environmental Education Group organized environmental education programs such as Smart Use of Air Conditioners and Electrical Appliances, Waste Separation and Recycling Scheme and Classroom Cleaning Competition. Our school also participates in the "Student Environmental Protection Ambassador Scheme" organized by Environmental Campaign Committee, to arouse students' interest in organizing environmental activities for the school community. They enjoy applying their knowledge in organizing various activities such as Waste Recycling Competition, Oxfam Hunger Banquet, and Marine Conservation Week etc.
Learning and Teaching Plan
Whole-school Language Policy: All subjects, except Chinese Language, Chinese Literature, Chinese History, Putonghua and Religious Education, are taught in English. Subject-based and cross-subject English programme, diversified English activities, Speak Putonghua campaigns, reading programmes, debating contests, public speaking, mini drama and overseas English exchange programmes are organized to help students master the 'Two Languages, Three Dialects'. Newspaper reading activities and forums on current affairs are also held to enhance students' ability to study current issues.
Learning and Teaching Strategies: We regard developing of student's learning skill as our primary concern. Self-regulated learning, diversified learning activities and tailor-made curricula are adopted to cater for the needs of students of different abilities and to enable them to derive pleasure from their academic achievements. While training on study skills is given in junior forms, various cross-curricular project learning programmes are implemented in S.1 to S.3 to reinforce related skills. 13 elective subjects are offered in S.4 and students can choose any 3 elective subjects according to their interests and abilities. Various subjects are set to cultivate in students' thinking skills and comprehension skills at different levels. To enhance student participation in class, interactive and self-directed learning and teaching strategies including cooperative learning, collaborative learning, group discussion, reporting and debating are adopted. To boost learning and teaching effectiveness, co-curricular learning activities, visits, field trips and life-wide learning day are also organized to extend learning and teaching beyond the classroom to reach out to real situations.
School-based Curriculum: 1. Electives: 3X. Students can choose to study 3 subjects out of 13 elective subjects. Subject combination and number of groups of elective subjects are arranged according to the abilities and interests of the students. 2. Curriculum highlights: For S.1 to S.3, a school-based curriculum is adopted to enhance learning interest and competence. It provides training of generic skills & different learning opportunities to our students in order to prepare themselves for public examination and life-long learning.
Major Renewed Emphases in the School Curriculum: To equip students for the challenge in the 21st century, the school curriculum reinforces the development of students' higher order thinking skills, explorative spirits and self-motivation. Whole School Reading Scheme, including book sharing, thematic reading activities, reading award scheme are implemented to promote students' reading interest and self-directed learning. To prepare students for the Senior Secondary education, the school implements project learning programme in junior forms to let students go through various research and project learning processes. Apart from academic pursuits, the school has also prioritized cultivating students' positive intelligence and ethos. In this direction, class periods, workshops, talks, regular morning sharing and other activities are held to cultivate in students the core values of respect, gratitude, perseverance and serving others. STEAM curriculum and inter-disciplinary cooperation between Maths, Junior Science and Computer Literacy Departments pave the way to create an interactive, student-centered STEAM Education Environment so as to consolidate students generic skills acquired from various subjects.
Life Planning Education: According to the needs of students at different levels of school, our school starts to find their interests in junior secondary, and then learns about further studies and the working environment in senior secondary. At the same time, the school caters for students' learning diversity and provides corresponding career counseling for students with different needs. We also help students learn about the world of work and provide them with work-related learning experiences to broaden their horizons and equip them early to face the ever-changing world.
Student Support
Whole School Approach to Catering for Learner Diversity: The school has introduced a whole-school participation approach to provide appropriate support for the personal growth of students at different stages. Promoting the concept of whole-person development, the school aims to fully, comprehensively, and harmoniously cultivate students' potentials in various aspects. This also empowers students to put into practice the benevolent spirit of the school motto "To act benevolently and to teach benevolence" , and give back to society with a heart of kindness. Through this, the school helps students establish good mental habits and a positive mindset, while also enhancing their collaboration and leadership abilities.
Whole School Approach to Integrated Education: Our school implements student support work in a Whole-school Approach model to cater for students' individual differences and students with special educational needs. We provide appropriate guidance and support for students with different educational needs. We also make reasonable adjustments in teaching and assessments to students with special educational needs. We promote mutual respect among teachers and students, encourage home-school cooperation, and create an inclusive environment. Our school-based support services include Speech Therapy, Educational Psychology Service, Learning Support Service, Group training and support to parents.
Education Support for Non-Chinese Speaking (NCS) Students: Our school provides additional support for NCS students to facilitate their learning of Chinese: arranging intensive Chinese learning and teaching mode(s), e.g. pull-out learning if necessary, split-class/group learning, etc.; and organising activities to create an inclusive learning environment in the school. Adapted learning and teaching materials are provided. Moderation is arranged in Examination and Assessment. Special seating arrangement has been made for NCS and Chinese speaking students in order to enhance the communication in Chinese.
Measures to Provide Adaptation for Learning and Assessment: There are two examinations and two uniform tests in an academic year. Tests results, first term examination results and final examination results contribute 20%, 24% and 40% respectively to the result of the whole year. Continuous assessment (Dictation, quizzes, projects and book reports) will take up 16% of the annual total mark. Our school also offers individual students measures such as extended time for examinations and score adjustments as necessary.

Home-School Co-operation and School Ethos
Home-School Co-operation: The Parent-Teacher Association actively cooperates with the school to organize various activities to enhance rapport and communication between parents and the school.
School Ethos: We aim to create a caring, harmonious learning environment in which students can acquire a spirit of kindness, benevolence and serving others. Our students are educated to be well-rounders who have outstanding academic results, develop a growth mindset and varied talents or achievements and can make meaningful contribution to the community.
Future Development
School Development Plan: The school aims to provide comprehensive, holistic education for all students. By fostering the spirit of enquiry and exploration among students, equip students to become proactive learners. Apart from academic subjects, team building, communication skills, attitude towards life and moral education are also of vital importance in the school curriculum. Continuing professional development of teachers are encouraged to maintain the quality of education. The school also emphasizes the connection with parents and the community and strives to provide high-quality whole-person education.
Teacher Professional Training and Development: In line with the professional ladder set by the Education Bureau, teachers are encouraged to actively participate in professional training courses and activities. Through professional exchanges and collaboration within and outside the school, a professional learning community is established to enhance teachers' professional capacity.
Life-wide Learning (Including Five Essential Learning Experiences to be Provided through Key Learning Areas, Extra-curricular Activities, Co-curricular Activities, etc.)
We have more than fifty clubs and interest groups. Through inter-house activities and competitions, our students develop organizational abilities and a sense of belonging to the school. Co-curricular activities further enhance their knowledge outside the classroom and help them form good habits and character. To widen their horizons, boost their confidence and facilitate exchange of experiences, they actively participate in inter-school contests, charity events and cultural exchange tours. We organise thematic exchange programmes to extend students’ learning beyond classrooms and have their national identity and global citizenship nurtured. Apart from arranging for students to join study tours organised by EDB and external organisations, we organised study tours to various destinations, including Japan, Korea, Indonesia, Cambodia and Mainland China, with diverse themes such as sports training, STEAM discovery, sustainable development, life planning and the Belt and Road Initiative.
School Facilities
Number of Classroom(s): 26
School Facilities: The school hall, all classrooms and special rooms are air-conditioned. On completion of the school improvement project in 1998, special facilities for the physically disabled, a student activity centre, a staff common room, a parents' resource centre and an interviewing room came into being. To further enhance the facilities, a well-equipped fitness room was built with donations from the Alumni Association in 2005 and partitions and air-conditioners were installed in the covered playground with funding from Sik Sik Yuen in 2007. On completion of the school improvement project in 2024, English language resource room and Makerspace were built. Besides, all classrooms and special rooms are equipped with interactive e-whiteboards.
Facility(ies) for Supporting Students with Special Educational Needs: Ramp, Accessible lift and Accessible toilet.
Others
Various scholarships are also provided by the sponsoring body, Sik Sik Yuen and the HLC Alumni Association and the school. The Alumni Association offers various scholarships to recognize and encourage well-rounded student development. These include scholarships for holistic development, leadership, and outstanding aesthetic development, with the aim of fostering excellence and supporting students in developing diverse talents.
Direct Public Transportation to School
